Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A credit card applicant seeking financial services.	Apply for a credit card and receive a quick approval decision.	The approval process is often slow and involves manual verification.	Banks need to analyze multiple financial and personal factors before making a decision.	Uncertain and anxious about whether my application will be approved.
