

### Initial Project Planning Template

|               |                                    |
|---------------|------------------------------------|
| Date          | 07 July 2026                       |
| Team ID       |                                    |
| Project Name  | Credit Card Application Prediction |
| Maximum Marks | 5 Marks                            |

### Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create a product backlog and sprint schedule

| Sprint   | Functional Requirement (Epic)  | User Story Number | User Story / Task                                                                                                                      | Story Points | Priority | Team Members              | Sprint Start Date | Sprint End Date (Planned) |
|----------|--------------------------------|-------------------|----------------------------------------------------------------------------------------------------------------------------------------|--------------|----------|---------------------------|-------------------|---------------------------|
| Sprint-1 | Data Collection                | USN-1             | As a developer, I want to collect the application and credit datasets so that I can build the prediction model.                        | 2            | High     | Shubham Sagar, Karthikeya | 27-06-2026        | 27-06-2026                |
| Sprint-1 | Data Preprocessing             | USN-2             | As a developer, I want to clean, merge, and preprocess the datasets for machine learning.                                              | 3            | High     | Karthikeya, Rakesh        | 28-06-2026        | 30-06-2026                |
| Sprint-2 | Model Development & Evaluation | USN-3             | As a developer, I want to train multiple machine learning models, compare their performance, and select the best model for prediction. | 5            | High     | Roopa, Nazma              | 01-07-2026        | 04-07-2026                |
| Sprint-1 | Web Application Development    | USN-4             | As a user, I want to enter applicant details through a web interface and receive an instant credit card approval prediction.           | 5            | High     | Roopa, Nazma              | 05-07-2026        | 06-07-2026                |
| Sprint-1 | Testing & Deployment           | USN-5             | As a developer, I want to test the Flask application and deploy the prediction system for demonstration.                               | 3            | Medium   | Rakesh, Shubham Sagar     | 06-07-2026        | 07-07-2026                |
